

September 10, 2024

ORT Montreal is thrilled to announce the first-ever **Peartree Pickleball Tournament**, happening on **Sunday, November 3**, at the beautiful new [Club PKL](#) in downtown Montreal.

We're talking about fun, food, fabulous prizes, and maybe even a celeb or two dropping by to show off their serve—all in the name of supporting STEM (Science, technology, Engineering, Math) education enriched with Jewish values.

Why Team Up with Us?

Your sponsorship fuels our mission to bring STEM education to areas like Israel and Ukraine, where conflict is an unfortunate part of daily life. ORT schools serve as sanctuaries of hope, equipping students with the tools they need for a promising future, despite the socioeconomic or geopolitical challenges they face.

Pickleball is North America's fastest-growing sport, capturing the interest of nearly every demographic. By partnering with us, you'll demonstrate a commitment to education and community wellness, where each serve and volley contributes to shaping a brighter future.

Enclosed with this letter is our sponsorship brochure, which outlines different levels and the associated benefits. Feel free to reach out to discuss next steps or address any questions you might have.

In today's world, backing events like ORT Montreal's **Peartree Pickleball Tournament** transcends mere brand promotion; it's a strategic investment in the future of education, technology, and Jewish culture.

Don't let this opportunity go out like a bad serve! Get in contact and let's get this game started!

Sincerely,

David Smajovits
Director, ORT Montreal
